TO: Director of Logistics
FROM: Director of Communications

Date: 10 May 1957

SUBJECT: (A) Memorandum OL 7-1457, dated 20 March 1957
(B) Memorandum for D/LO and G/CO dated 12 March 1957, Subject;
"Elimination of Duplication of Supply Functions and Possible
Reduction in Numbers of Personnel Engaged in OC/OL Supply
Activities," signed by OL and OC Representatives

1. The recommendations contained in reference B are concurred in by this Office.
2. Although I believe an inter-office indoctrination would be of some benefit to both offices, I believe the exchange of personnel at the GS-11 level would be impractical since the requirements at this level are too highly specialized in the Material Support Branch to afford any reasonable benefit to either of our offices. It is my opinion that such an exchange program should be only at the GS-7 or 9 positions.
3. Overseas rotations which are scheduled to take place over the next few months make it impossible, at this time, to implement an exchange program; however, it may be possible at some later date to rotate one or two persons in GS-7 or 9 positions.
